

- What do I want to learn or understand better?
- How can I help someone else, or the entire team, to learn something new?
- What is my contribution towards the team's use of Scrum?
- What is my contribution towards the team's deliveries?

What i want to understand better is how JSON files are implemented and for what purpose it is used in Java coding.

I can help someone else by inquiring and asking my teammates where they are and how far along they are getting in their work to encourage an open space to ask for help.

My contribution of my teams use of Scrum is taking an active role as a meeting leader and documenter.

My contribution of my teams deliveries is the project database and PR
