FIX:
- fix tasks for user stories in the to-do list. (Erik)
- Numerate userstories (Erik)

Initial Boilerplate app: Erik
- Everyone should try running once Erik is done with this

Application icon: Ramza

Add map to view: Molly, Daniel
- Show map
- Show position

Motivate users to go for a walk: Joakim, Valeria
- calculate time since last walk.
- Suggestion: 18+ hours after last walk and check if that time is after 8am.
- Create initial route object
- Create initial user object
- Integrate in gui
