- What do I want to learn or understand better?
- How can I help someone else, or the entire team, to learn something new?
- What is my contribution towards the team's use of Scrum?
- What is my contribution towards the team's deliveries?

I want to learn how to properly close down a project after its considered done.
My contribution of the teams use of Scrum is taking charge of the documentation during meetings, creating user story and follow up on PR for finished issues.
My contribution to the teams deliveries are user story #1, Pull request reviews and some assistance.
